Monument review chart final w BLM Acres Identified.docx  
Monument Proclamation Language for National Monuments under review.docx

Hi Nikki,

I added two columns to the National Monument review table with BLM acres and total acres of the monument (this includes other federal acres only). In addition, Rachel put a table together highlighting the acres identified in the Proclamations.

Hopefully this helps,

Timothy J Fisher, Program Lead

\*\* Organ Mountains Desert Peaks

New Mexico recently discovered a clerical error occurred with reporting acres for Organ Mountains Desert Peaks National Monument in various data calls including the annual Managers Report. In the past, State and Private lands were subtracted from the total BLM acres versus added to the acres to truly identify what acres are Federally managed within the National Monument boundary. The acreages are accurate on this table.

**Commented [BRR1]:** New acreage figure from BLM 8/23  
this number consistent with figure in Recommendations section

**Commented [BRR2]:** Revised figure from NPS 8/23

**Commented [BRR3]:** New figure from NPS 8/23 reflects better mapping

**Commented [BRR4]:** New acreage from BLM 8/23

**Commented [BRR5]:** New acreage from BLM 8/23

**Commented [BRR6]:** New acreage from BLM 8/23

<b>Monument</b>	<b>Location</b>	<b>Year(s)</b>	<b>Proclamation Language</b>
Basin and Range	Nevada	2015	These reserved Federal lands and interests in lands encompass approximately 704,000 acres. The boundaries described on the accompanying map are confined to the smallest area compatible with the proper care and management of the objects to be protected.
Bears Ears (BLM and USFS)	Utah	2016	These reserved Federal lands and interests in lands encompass approximately 1.35 million acres. The boundaries described on the accompanying map are confined to the smallest area compatible with the proper care and management of the objects to be protected.
Berryessa Snow Mountain (BLM and USFS)	California	2015	These reserved Federal lands and interests in lands encompass approximately 330,780 acres. The boundaries described on the accompanying map are confined to the smallest area compatible with the proper care and management of the objects to be protected.
Canyons of the Ancients	Colorado	2000	The Federal land and interests in land reserved consist of approximately 164,000 acres, which is the smallest area compatible with the proper care and management of the objects to be protected.
Carrizo Plain	California	2001	The Federal land and interests in land reserved consist of approximately 204,107 acres, which is the smallest area compatible with the proper care and management of the objects to be protected.
Cascade-Siskiyou	Oregon	2000/2017	2000 “The Federal land and interests in land reserved consist of approximately 52,000 acres, which is the smallest area compatible with the proper care and management of the objects to be protected.” 2017 - “These reserved Federal lands and interests in lands encompass approximately 48,000 acres. The boundaries described on the accompanying map are confined to the smallest area compatible with the proper care and management of the objects to be protected.”

Craters of the Moon (BLM/ USPS)	Idaho	1924/2000	The Federal land and interests in land reserved consist of approximately 661,287 acres, which is the smallest area compatible with the proper care and management of the objects to be protected.
Gold Butte	Nevada	2016	These reserved Federal lands and interests in lands encompass approximately 296,937 acres. The boundaries described on the accompanying map are confined to the smallest area compatible with the proper care and management of the objects to be protected.
Grand Canyon-Parashant (BLM and USPS)	Arizona	2000	The Federal land and interests in land reserved consist of approximately 1,014,000 acres, which is the smallest area compatible with the proper care and management of the objects to be protected.
Grand Staircase-Escalante	Utah	1996	The Federal land and interests in land reserved consist of approximately 1.7 million acres, which is the smallest area compatible with the proper care and management of the objects to be protected.
Ironwood Forest	Arizona	2000	The Federal land and interests in land reserved consist of approximately 128,917 acres, which is the smallest area compatible with the proper care and management of the objects to be protected.
Mojave Trails	California	2016	These reserved Federal lands and interests in lands encompass approximately 1.6 million acres. The boundaries described on the accompanying map are confined to the smallest area compatible with the proper care and management of the objects to be protected.
Organ Mountains-Desert Peaks	New Mexico	2014	These reserved Federal lands and interests in lands encompass approximately 496,330 acres, which is the smallest area compatible with the proper care and management of the objects to be protected.
Rio Grande del Norte	New Mexico	2013	These reserved Federal lands and interests in lands

			encompass approximately 242,555 acres, which is the smallest area compatible with the proper care and management of the objects to be protected.
Sand to Snow (BLM and USFS)	California	2016	These reserved Federal lands and interests in lands encompass approximately 154,000 acres. The boundaries described on the accompanying map are confined to the smallest area compatible with the proper care and management of the objects to be protected.
Sonoran Desert	Arizona	2001	The Federal land and interests in land reserved consist of approximately 486,149 acres, which is the smallest area compatible with the proper care and management of the objects to be protected.
Upper Missouri River Breaks	Montana	2001	The Federal land and interests in land reserved consist of approximately 377,346 acres, which is the smallest area compatible with the proper care and management of the objects to be protected.
Vermilion Cliffs	Arizona	2000	The Federal land and interests in land reserved consist of approximately 293,000 acres, which is the smallest area compatible with the proper care and management of the objects to be protected.
